

Are you looking for a job?

LINKnet can help you to find a job, find further education opportunities or/and help your personal development.

You can get such help through a qualified and trained mentor and through employability trainings conducted by LINKnet.

LINKnet was established in 2000 to help minority ethnic people to secure employment, further education opportunities and to help people's personal development. It has a great track record of helping thousands of people.

The service is free of charge and available online or face-to-face. Mentoring takes place once a week for 2 – 3 hours (one day) per week.

Everyone over 18 years of age from any minority ethnic group (European or otherwise) is eligible to join the mentoring programme.

If you would like to join, please enquire from

Dissa
